## **Conference Hosts:**

- Renmin University of China, CN
- Lanzhou University of Finance & Economics, CN
- Chinese Academy of Sciences, CN
- Peking University, CN
- Capital Normal University, CN

## **Conference Organizers:**

- Center for Applied Statistics, Renmin University of China, CN
- School of Statistics, Renmin University of China, CN
- School of Statistics, Lanzhou University of Finance & Economics, CN
- Academy of Mathematics and Systems Science, Chinese Academy of Sciences, CN
- Guanghua School of Management, Peking University, CN
- School of Mathematical Science, Capital Normal University, CN

## **Program Committee**

### **Co-Chairs:**

- Yongjin Jin, Renmin University of China, CN
- Yanyun Zhao, Renmin University of China, CN

### **Members:**

- Ngai Hang Chan, The Chinese University of Hong Kong, HK
- Wolfgang Härdle, Humboldt-Universität zu Berlin, DE
- Jeremy S. Wu, George Washington University, USA
- Runze Li, Penn State University, USA
- Maozai Tian, Renmin University of China, CN
- Hansheng Wang, Peking University, CN

- Qihua Wang, Chinese Academy of Sciences, CN
- Keming Yu, Brunel University, UK
- Wei Yuan, Renmin University of China, CN
- Heping Zhang, Yale University, USA
- Bo Zhang, Renmin University of China, CN
- Guohua Zou, Chinese Academy of Sciences, Capital Normal University, CN

## Plenary Speakers

**Tianxi Cai,**

Professor of Biostatistics, Department of Biostatistics Harvard University. Fellow of American Statistical Association. Dr.

Cai's current research interests are mainly in the area of biomarker evaluation; model selection and validation; prediction methods; personalized medicine in disease diagnosis, prognosis and treatment; statistical inference with high dimensional data; and survival analysis.

**Jianqing Fan**

Professor of Statistics, University of Princeton. Frederick L. Moore '18 Professor of Finance. Chair, Operations Research and Financial Eng. Director of the Committee on Statistical Studies. In 2000, he received the COPSS Presidents' Award.

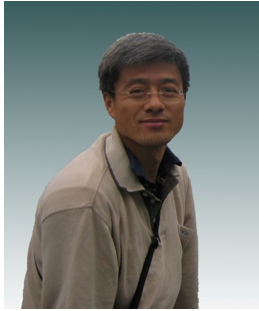

He is also a recipient of the Morningside Gold Medal of Applied Mathematics (2007), Guggenheim Fellow (2009), Pao-Lu Hsu Prize (2013) and Guy Medal in Silver (2014). He was elected to Academician from Academia Sinica in 2012.

**Wolfgang Karl Härdle**

Professor of Statistics, Humboldt-Universität zu Berlin. Director of CASE – the Centre for Applied Statistics and Economics.

Member of the ISI.

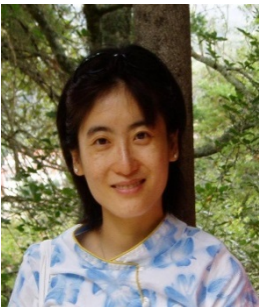

**Bing-Yi Jing**

Professor of Mathematics, the Hong Kong University of Science and Technology. Director of the Center for Statistical Science. Distinguished Professor of Changjiang Scholars of Ministry of Education.

**Runze Li**

Distinguished Professor, Penn State University. NSF Career Award Winner. Fellow of American Statistical Association and Institute of Mathematical Statistics. Co-Editor of *Annals of Statistics*.

**Yanyuan Ma**

Professor of Statistics, Texas A & M University, Texas.

**Qihua Wang**

Professor of Chinese Academy of Sciences. Winners of National Outstanding Youth Fund. Distinguished Professor of Changjiang Scholars of the Ministry of Education.

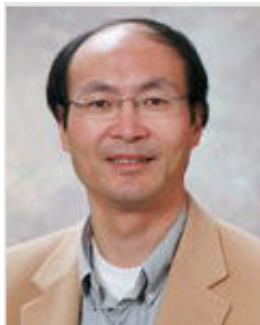

**Jeremy S. Wu**

George Washington University, USA. The AAGEN Stanley Suyat Memorial Leadership Award. U.S. Department of Commerce Group Gold Medal Award for Scientific/Engineering Achievements. U.S. Census Bureau Director's Innovation Award.

**Wei Yuan**

Professor of Statistics, the former Vice President of Renmin University of China, former Vice President of the National Statistical Society of China.

**Heping Zhang**

Susan Dwight Bliss Professor of Public Health (Biostatistics) and Professor in the Child Study Center and of Statistics, Director of Collaborative Center for Statistics in Science, Yale University.

**Yanyun Zhao**

Professor, Dean of the School of Statistics, Renmin University of China, the Key Research Institute in University in China. Director of the Centre for Research on the Assessment & Competitiveness of Renmin University of China, the Vice President of the National Statistical Society of China.

## Program

### 28th November

9:00-17:00      **Registration**      **Mingde Main Building 1030**

### 29th November

8:30-12:00      **800 People Lecture Hall**

8:30-9:00      **Opening Ceremony**

9:00-12:00      **Plenary Talks**

9:00-9:30 Plenary Talk 1

- Speaker: Wolfgang Karl Härdle , Humboldt-Universität zu Berlin
- Chair: Zongwu Cai, University of Kansas
- Title: Portfolio Decisions and Brain Reactions via the CEAD Method.

9:30-10:00 Plenary Talk 2

- Speaker: Heping Zhang, Yale University
- Chair: Manlai Tang, Hang Seng Management College
- Title: Detection of Chromosome Copy Number Variations in Multiple Sequences.

**10:00-10:30      Coffee Break**

10:30-11:00 Plenary Talk 3

- Speaker: Runze Li, Penn State University
- Chair: Yanyuan Ma, Texas A & M University
- Title: Model-Free Feature Screening for Ultrahigh Dimensional Discriminant Analysis.

11:00-11:30 Plenary Talk 4

- Speaker: Wei Yuan, Renmin University of China
- Chair: Yongjin Jin, Renmin University of China
- Title: The Cultivation of Big Data Analyst.

11:30-12:00 Plenary Talk 5

- Speaker: Jeremy S. Wu, George Washington University
- Chair: Zhiqiang Pang, Lanzhou University of Finance & Economics
- Title: Innovate Statistics to Support Modern Governance.

**12:00-13:30      Lunch Break**

**14:00-15:30      Session 1.1      Mingde Main Building 0404**

**Topic: Applied Statistics**

- Chair and Organizer: Xing Wang, Renmin University of China
- 1. Minya Xu, Peking University, Applying the Job Demands Resources Model to Migrant Workers: Exploring How and When Geographical Distance Increases Quit Propensity.
- 2. Meifeng Dai, Jiangsu University, Multifractal and Singularity Analysis of Highway Volume Data.
- 3. Guijun Yang, Tianjin University of Finance and Economics, Paradigm of Statistical Research.

**14:00-15:30      Session 1.2      Mingde Main Building 0405**

**Topic: Applied Statistics**

- Chair and Organizer: Yuping Hu, Gao Feng Advisory Company Limited
- 1. Jianzhong Lin, Shanghai Jiao Tong University, Research of Residential Intelligent Electricity Meter and Behavior for Electricity Consumption.
- 2. Sharmishtha Mitra, Indian Institute of Technology Kanpur, Robust Estimation of Parameters and Number of Components of Superimposed Nonlinear Sinusoidal Signal Models.
- 3. Amit Mitra, Indian Institute of Technology Kanpur, Asymptotic Behavior of M-estimators of Periodic Superimposed P-component Sinusoidal Models with Large  $p$ .

**14:00-15:30      Session 1.3      Mingde Main Building 0406**

**Topic: Applied Statistics**

- Chair and Organizer: Wei Xue, Renmin University of China
- 1. Xianyi Wu, East China Normal University, Stochastic Loss Reserving in Discrete Time: Individual versus Aggregated Data Models.
- 2. Yingmei Xu, Zhongnan University of Economics and Law, The Reality and Problems of Population Basic Information Sharing from Multiple Sources.

- 3. Wenhui Chen, Beijing Forestry University, The study of Social Value Evaluation Method and Application about Wild Animal Resources.

**14:00-15:30    Session 1.4    Mingde Main Building 0407**

**Topic: Applied Statistics**

- Chair and Organizer: Xiaoqun He, Renmin University of China
- 1. Junni Zhang, Peking University, Topics in Online Reviews: A New Influencer of Product Sales.
- 2. Chongqi Zhang, Guangzhou University, Mixture Experimental Design of Complex Systems.
- 3. Li Mei, Zhongnan University of Economics and Law, Statistical Analysis of World Cup Team Points and Technology Variables.

**14:00-15:30    Session 1.5    Mingde Main Building 0408**

**Topic: Big Data Analysis and Applications**

- Chair and Organizer: Pengpeng Zhou, Nanjing University of Finance & Economics
- 1. Jianfeng Zhan, Chinese Academy of Sciences, Big Data: a Computer System Perspective.
- 2. Weijing Wang, National Chiao Tung University, Introduction of the Big Data Program at NCTU.
- 3. Hanfang Yang, Renmin University of China, A Massive Data Analysis under Aggregated-Jackknife Approach.

**14:00-15:30    Session 1.6    Mingde Main Building 0409**

**Topic: Big Data Analysis and Applications**

- Chair and Organizer: Shengwang Meng, Renmin University of China
- 1. Ying Lowrey, Tsinghua University, Alibaba Data and Employment Research.
- 2. Mingfeng Dai, National Health and Family Planning Commission of the People's Republic of China, Application of Big Data in Medical Field.
- 3. Zhihui Zhan, Sun Yat-sen University, Statistics and Optimization of Big Data Problems Based on Group Intelligence.

**14:00-15:30    Session 1.7    Mingde Main Building 0410**

**Topic: Big Data Analysis and Applications**

- Chair and Organizer: Jingping Li, Renmin University of China
- 1. Tong Mo, Peking University, Big Data & Elderly Care.
- 2. Jianping Zhu, Xiamen University, A New Thinking about Higher Education in a Big Data Era.
- 3. Zili Zhang, Southwest University, Educational Data Mining Research Progresses and Challenges Based on Big Data Collection in National College Entrance Examination.

**14:00-15:30    Session 1.8    Mingde Main Building 0411**

**Topic: Big Data Analysis and Applications**

- Chair and Organizer: Yugu Xiao, Renmin University of China
- 1. Wei'an Zheng, East China University of Science and Technology, Financial Big Data and High Frequency Statistical Arbitrage.
- 2. Yi Li, Shanxi University of Finance and Economics, Integrating Genotype Patterns into Disease-Association Analysis in Big Data.
- 3. Qingguo Zhang, Anhui Agricultural University, Non-parameter Statistical Approaches in Analyzing the Seasonal Change of Precipitation Time Series for Big Data.

**14:00-15:30    Session 1.9    Mingde Main Building 0412**

**Topic: Big Data Analysis and Applications**

- Chair and Organizer: Xiaojun Wang, Renmin University of China
- 1. Liwei Wang, Peking University, Privacy Preserving Machine Learning in the Big Data Era.
- 2. Zhanjie Song, Tianjin University, Sampling, Reconstruction and Approximation of Random Fields.
- 3. Leping Liu, Tianjin University of Finance and Economics, The Third Statistical Analysis Paradigm: Big Data and Statistical Thinking.

**14:00-15:30    Session 1.10    Mingde Main Building 0413**

**Topic: Applied Statistics**

- Chair and Organizer: Zisheng Ouyang, Hunan University of Commerce
- 1. Junfa Liu, Chinese Academy of Sciences, Fingerprint Positioning System Based on Infinite Incremental Data.
- 2. Yueguo Chen, Renmin University of China, A Log-Big-Data-Oriented High-Performance Data Analysis System.
- 3. Zhiwu Lu, Renmin University of China, Cross-Model Analysis for Image Applications.

**15:30-15:50      Coffee Break**

**15:50-17:20      Session 2.1      Mingde Main Building 0404**

**Topic: Models and Methodology**

- Chair: Hanying Liang, Tongji University
- 1. Erqian Li, Renmin University of China, Parametric Quantile Estimation Based on Generalized Hyperbolic Distribution.
- 2. Hao Zhu, Central South University, Sinicization of Academic Evaluation Criterion and Structure Evaluation Method.
- 3. Baqun Zhang, Renmin University of China, Estimating Optimal Treatment Regimes from a Classification Perspective.
- 4. Zhongyuan Zhang, Central University of Finance and Economics, Symmetric Two Value Detection Network Community Structure Based on Matrix Decomposition Model.

**15:50-17:20      Session 2.2      Mingde Main Building 0405**

**Topic: Statistical Computation**

- Chair and Organizer: Shishun Zhao, Jilin University
- 1. Xiaoling Lv, Renmin University of China, Prediction of Smartphone Users' Application Usage and Location Based on Clustering Analysis.
- 2. Shifeng Xiong, Chinese Academy of Sciences, OEM: An Experimental Design Algorithm for Least Squares Problems with Observational Data.

- 3. Liwen Xu, North China University of Technology, Parametric Bootstrap Approaches for Two-Way MANOVA with Unequal Cell Sizes and Unequal Cell Covariance Matrices.
- 4. Kinkar Chandra Das, Sungkyunkwan University, Proof of Conjectures on the Distance Signless Laplacian Eigenvalues of Graphs.

**15:50-17:20    Session 2.3    Mingde Main Building 0406**

**Topic: Finance and Economics Statistics**

- Chair and Organizer: Guohe Deng, Guangxi Normal University
- 1. Chenxu Li, Peking University, Econometric Analysis of Continuous-Time Models: a Closed-form Expansion Approach.
- 2. Qin Si, Inner Mongolia University of Finance and Economics, Empirical Analysis of Interaction between Culture Industry Development and Economic Growth in Inner Mongolia.
- 3. Zhengxiao Li, Renmin University of China, Extension and Application of Credibility Models of Predicting Claim Frequency.
- 4. Xingdong Feng, Shanghai University of Finance and Economics, Statistical Inference Based on Robust Low-rank Data Matrix Approximation.

**15:50-17:20    Session 2.4    Mingde Main Building 0407**

**Topic: Big Data Analysis and Applications**

- Chair and Organizer: Yang Jin, Renmin University of China
- 1. Biao Qin, Renmin University of China, Vast Similarity Search for Massive Activity Trajectories Based on Hadoop.
- 2. Xin An, Beijing Forestry University, The Auction Measurement Methods in Large Data.
- 3. Zhengyong Liu, Hebei Finance University, Statistics Abuse and Paradigm Shift in Big Data Era.

**15:50-17:20    Session 2.5    Mingde Main Building 0408**

**Topic: High Dimensional Data and Dimension Reduction**

- Chair and Organizer: Qizhai Li, Chinese Academy of Sciences

- 1. Philip L.H.Yu, University of Hong Kong, High Dimensional Covariance Matrix Estimation by Penalizing the Matrix Logarithmic Transformed Likelihood.
- 2. Yilun Wang, University of Electronic Science and Technology of China, Randomized Structural Sparsity Based Feature Selection with Application to High Dimensional Neuro Image Data.
- 3. Wenquan Cui, University of Science and Technology of China, RKHS-Based Approach to Nonlinear Dimensional Reduction for Survival Data.

**15:50-17:20      Session 2.6      Mingde Main Building 0409**

**Topic: High Dimensional Data and Dimension Reduction**

- Chair and Organizer: Suling Ren, Lanzhou University Of Finance & Economics
- 1. Gaorong Li, Beijing University of Technology, Robust Rank Correlation Based Screening.
- 2. Jianxin Yin, Renmin University of China, Covariate-Adaptive Randomization with Variable Selection in High Dimensional Data.
- 3. Leilei Zeng, University of Waterloo, Bias in Progression-Free Survival Analysis Due to Interval-Censored Observations.

**15:50-17:20      Session 2.7      Mingde Main Building 0410**

**Topic: Methods and Applications in Biostatistics**

- Chair and Organizer: Chongqi Zhang, Guangzhou University
- 1. Ping Chen, Southeast University, Detection and Estimation of the Outliers in Functional Coefficient Time Series Models Using Genetic Algorithm and Extreme Value Theory.
- 2. Qingsong Xu, Central South University, Identifying Bioactive Components in Natural Products through Variable Screening.
- 3. Yunxin Zhang, Fudan University, Prediction of Promoter Strength in Gene Expression from Its Nucleotide Sequence.

**15:50-17:20      Session 2.8      Mingde Main Building 0411**

**Topic: Models and Methodology**

- Chair: Yufeng Shi, Shandong University of Finance and Economics
- 1. Qing Liu, Renmin University of China, RABBIC: Discover Gene Modules from Gene Expression Data.
- 2. Zongwu Cai, University of Kansas, Testing Instability of Predictability of Asset Returns.
- 3. Wenwu Gao, Anhui University, Asymptotic Properties and Bandwidth Selections for Numerical Derivatives of Noisy Data by Multi Quadric-Type Quasi-Interpolants.
- 4. Hao Chen, University of California, Davis, Change-Point Detection for Multivariate and Object Data.

**15:50-17:20      Session 2.9      Mingde Main Building 0412**

**Topic: Models and Methodology**

- Chair: Philip L.H. Yu, University of Hong Kong
- 1. Ziqi Chen, Central South University, Dynamic Covariance Models.
- 2. Naomi Altman, Pennsylvania State University, Generalizing Principal Components Analysis.
- 3. Jianhong Wu, Zhejiang Gongshang University, Moment-Based Tests for Individual and Time Effects in Panel Data Models.
- 4. Changxuan Mao, Shanghai University of Finance and Economics, on Log-Linear Representations of the Rasch Model in Capture-Recapture Studies.

**15:50-17:20      Session 2.10      Mingde Main Building 0413**

**Topic: Models and Methodology**

- Chair and Organizer: Jingjun Guo, Lanzhou University of Finance & Economics
- Amita Pal, Indian Statistical Institute, Statistical Techniques for Content-Based Image Retrieval (CBIR).
- Peiting Zhou, National Chengchi University, Data Driven Geometry for Learning.

- Ferreira Tadeu, University of Toronto, Machine Learning and Limit Order Books.

**17:30      Conference Banquet      F.S. Grand Banquet**

## 30th November

**8:30-12:00      800 People Lecture Hall**

8:30-9:00 Plenary Talk 6

- Speaker: Jianqing Fan, Princeton University
- Chair: Wolfgang Karl Härdle, Humboldt-Universität zu Berlin
- Title: Estimating Large Covariance Matrices with Covariates.

9:00-9:30 Plenary Talk 7

- Speaker: Tianxi Cai, Harvard University
- Chair: Naomi Altman, Pennsylvania State University
- Title: Discovery Research with EMR.

9:30-10:00 Plenary Talk 8

- Speaker: Yanyun Zhao, Renmin University of China
- Chair: Guohua Zou, Chinese Academy of Sciences Capital Normal University
- Title: Statistical Design in Big Data.

**10:00-10:30      Coffee Break**

10:30-11:00 Plenary Talk 9

- Speaker: Bing-Yi Jing, Hong Kong University of Science and Technology
- Chair: Lei Shi, Yunnan University of Finance and Economics
- Title: Fused Lasso with Non-Convex Penalty and Its Applications.

11:00-11:30 Plenary Talk 10

- Speaker: Yanyun Ma, Renmin University of China
- Chair: Haipeng Shen, University of North Carolina
- Title: Robust Mixed-Effects Model for Clustered Failure Time Data: Application to Huntington's Disease Onset Measures.

11:30-12:00 Plenary Talk 11

- Speaker: Qihua Wang, Chinese Academy of Sciences
- Chair: Smarajit Bose, Indian Statistical Institute
- Title: How to Make Model-Free Feature Screening Approaches for Full Data Applicable to Missing Response Case.

**12:10-13:30      Lunch Break      the Eastern Canteen**

**14:00-15:30      Session 3.1      Mingde Main Building 0404**

**Topic: Models and Methodology**

- Chair and Organizer: Yaohui Chen, Nanjing University of Finance and Economics
- 1. Yifan Sun, Renmin University of China, Probabilistic Reconstruction and Optimal Matrix Design in Compressed Sensing.
- 2. Manlai Tang, Hangseng Management College, Non-Randomized Technique for Sensitive Surveys with Noncompliance.
- 3. Wei Zhang, Chinese Academy of Sciences Capital Normal University, Parametric and Semiparametric Least Square Regression Methods for Clustered ROC Data.
- 4. Li Wei, Renmin University of China, Asymptotic Analysis of the Loss Given Default under Prudent Regulation.

**14:00-15:30      Session 3.2      Mingde Main Building 0405**

**Topic: Models and Methodology**

- Chair and Organizer: Liping Liu, Peking University
- 1. Qizhai Li, Chinese Academy of Sciences, Adaptively Array-Based Group Testing Algorithm with Misclassification.
- 2. Yingli Qin, University of Waterloo, Hypothesis Testing for High-Dimensional Covariance Matrices.
- 3. Zhonghua Li, Nankai University, Multivariate Exponentially Weighted Moving Average Chart for Monitoring Poisson Observations.

- 4. Pierre Lafaye de Micheaux, Université de Montréal, Multivariate Nonparametric Test of Independence.

**14:00-15:30 Session 3.3 Mingde Main Building 0406**

**Topic: Modern Hypothesis Tests**

- Chair and Organizer: Jiashan Tang, Nanjing University of Posts and Telecommunications
- 1. Xu Guo, Nanjing University of Aeronautics and Astronautics, Testing for Positive Expectation Dependence.
- 2. Ming Lin, Xiamen University, A Regime Shift Model with Nonparametric Switching Mechanism.
- 3. Mian Huang, Shanghai University of Finance and Economics, Python and High-Frequency Data Modeling.
- 4. Smarajit Bose, Indian Statistical Institute, Robust Speaker Identification.

**14:00-15:30 Session 3.4 Mingde Main Building 0407**

**Topic: Statistical Designs and Inference**

- Chair and Organizer: Weihua Cheng, Beijing University of Technology
- 1. Fukang Zhu, Jilin University, Inference for Bilinear Time Series Models.
- 2. Peng Zhang, Zhejiang University, Inference on Area under the Curve Based on Methods of Quantiles.
- 3. Zhuling Sun, Shanghai Jiao Tong University, Statistical Inference Technique of Big Data-Multiple Sample Inference Technique.
- 4. Wangli Xu, University of China, Semiparametric Inference for Data with a Continuous Outcome from a Two-Phase Probability Sampling Scheme.

**14:00-15:30 Session 3.5 Mingde Main Building 0408**

**Topic: Big Data Analysis and Applications**

- Chair and Organizer: Riquan Zhang, East China Normal University
- 1. Juntao Li, Henan Normal University, Statistical Machine Learning-Biological Data Mining in a Big Data Era.

- 2. Haipeng Shen, University of North Carolina Chapel Hill, Big Data Opportunities and Challenges in Business Analytics.
- 3. Qing He, Chinese Academy of Sciences, Cloud Service Platforms and Applications of Mining in Big Data.

**14:00-15:30      Session 3.6      Mingde Main Building 0409**

**Topic: Big Data Analysis and Applications**

- Chair and Organizer: Yuhua Zhu, Henan University of Technology
- 1. Lixin Zhou, Peking University, Big Data and Smart City.
- 2. Ping He, Southwest Jiaotong University, The Big Data Problem of High-Speed Rail Operation and Maintainance.
- 3. Zhouchen Lin, Peking University, Applications of Low-Rankness in Data Analysis.

**14:00-15:30      Session 3.7      Mingde Main Building 0410**

**Topic: Finance and Economics Statistics**

- Chair and Organizer: Haibo Han, Lanzhou University of Finance and Economics
- 1. Qiang Xiao, Lanzhou University of Finance and Economics, China's Financial Market and Its Relevant Measurement with Macroeconomy-Based on Cross-Spectral Analysis and the Wavelet Transform.
- 2. Rong Ma, Lanzhou University of Finance and Economics, Definition and Review on Measurement Methods of Technological Progress-in the Framework of New Economic Growth Theory.
- 3. Guodong Wei, Zhongnan University of Economics and Law, Dynamic Comprehensive Evaluation on the Economic Development of Low-Carbon of the Six Provinces of the Central China-from the View of the Feature of Speed.

**14:00-15:30      Session 3.8      Mingde Main Building 0411**

**Topic: Finance and Economics Statistics**

- Chair and Organizer: Shaomei Jiang, Jiangxi University of Finance and Economics
- 1. Jinfang Tian, Shandong University of Finance and Economics, Predictability of Stock Market Moves Using Web Search Queries.
- 2. Yanyan Huang, Lanzhou University of Finance and Economics, Rising Housing Price, Multi-Suite Decision and Household Savings Rate in Urban China.
- 3. Gao Chen, Zhongnan University of Economics and Law, The Research of Statistical Diagnosis Model for Expanding Construction and the Chinese Government Financial Fund Data Quality.

**14:00-15:30    Session 3.9    Mingde Main Building 0412**

**Topic: Finance and Economics Statistics**

- Chair and Organizer: Jianfeng Yang, Nankai University
- 1. Yu Fei, Yunnan University of Finance and Economics, The Study of Jot Loan Decision Model Based on Financial Information.
- 2. Yousheng Gao, Huaqiao University, Trading Volumes of Stocks and Market Implied Volatilities: Evidence from VIX and VXN.
- 3. Yilin Wu, Renmin University of China, Employment Growth, Export, Product Innovation and Distance to the Productivity Frontier in China: A Firm Level Comparison across Regions, Industries, Ownership Types and Size Class.

**14:00-15:30    Session 3.10    Mingde Main Building 0413**

**Topic: High Dimensional Data and Dimension Reduction**

- Chair and Organizer: Qing Liu, Renmin University of China
- 1. Yanyan Liu, Wuhan University, A Constructive Approach to Sparse Linear Regression in High Dimensions.
- 2. Yaohua Rong, Beijing University of Technology, A New Estimation and Variable Selection Method in Semiparameter Model Using Garrotized Kernel Machines.

- 3. Xuejun Ma, Renmin University of China, A New Variable Selection Approach for Varying Coefficient Models.

**15:30-15:50 Coffee Break**

**15:50-17:20 Session 4.1 Mingde Main Building 0404**

**Topic: High Dimensional Data and Dimension Reduction**

- Chair and Organizer: Zengru Di, Beijing Normal University
- 1. Yuehan Yang, Central University of Finance and Economics, Adaptive Elastic Net and Separate Selection from Least Squares for Ultra-High Dimensional Regression Models.
- 2. Jianbo Li, Jiangsu Normal University, Adaptive Lasso for Detecting Spatial Clusters of Disease.
- 3. Nenghui Zhu, Shanghai University of Finance and Economics, Adaptive Robust Variable Selection in High Dimensional Nonparametric Additive Models.

**15:50-17:20 Session 4.2 Mingde Main Building 0405**

**Topic: High Dimensional Data and Dimension Reduction**

- Chair and Organizer: Ming Jian, Renmin University of China
- 1. Yuzhu Tian, Henan Polytechnic University, Bayesian Quantile Regression and Variable Selection for Mixed Effects Models Based on Complex Data.
- 2. Tao Huang, Shanghai University of Finance and Economics, Clustering and Dimension Reduction by Mixture of Factor Analyzers.
- 3. Zhewei Wei, Renmin University of China, Compute Statistical Summaries for Streaming Data.

**15:50-17:20 Session 4.3 Mingde Main Building 0406**

**Topic: Network Data and Analysis**

- Chair and Organizer: Wenwu Yu, Nanjing University

- 1. Jinguo Xin, Hangzhou Dianzi University, An Empirical Study on the Factors of Technical Statistical Data Acquisition Network Based on the Technology of the Internet of Things.
- 2. Chuansheng Shen, Anqing Normal University, Development and Application of Coarse-Grained. Methods to Multiscale Dynamics in Complex Networks.
- 3. Hansheng Wang, Peking University, Ego Network Characteristics and Customer Churn.

**15:50-17:20      Session 4.4      Mingde Main Building 0407**

**Topic: Network Data and Analysis**

- Chair and Organizer: Peng Zhang, Zhejiang University
- 1. Lin Zhang, Beijing University of Posts and Telecommunications, Exploring the Structures in the Undergraduate Curriculum from the Perspective of Networks.
- 2. Ji Zhu, University of Michigan, Link Prediction for Partially Observed Networks.
- 3. Shuqin Zhang, Fudan University, Multi-View Spectral Clustering with Applications in Gene Co-Expression Networks.

**15:50-17:20      Session 4.5      Mingde Main Building 0408**

**Topic: Network Data and Analysis**

- Chair and Organizer: Qing He, Chinese Academy of Sciences
- 1. Ying Fan, Beijing Normal University, Ranking Scientific Publications Based on Scientific Citation Network.
- 2. Zuguo Yu, Xiangtan University, Some Applications of Fractal and Statistical Methods to Phylogenetic Analysis and Complex Networks.
- 3. Dong Han, Shanghai Jiao Tong University, Statistical Analysis of Network Data.

**15:50-17:20      Session 4.6      Mingde Main Building 0409**

**Topic: Regression Analysis**

- Chair and Organizer: Zhao Yin, Central University of Finance and Economics

- 1. Cuizhen Niu, Renmin University of China, Checking Nonparametric Component for Partial Linear Regression Model with Missing Response.
- 2. Lin Xu, Zhejiang University of Finance and Economics, Decomposing Family Income Effect on Chinese Child BMI Gaps between 1991 and 2009 Using Counterfactual Quantile Regression Analysis.
- 3. Zhen Yan, Renmin University of China, Double Kernel Estimation for Conditional Heteroscedasticity in Quantile Regression.
